The accompanying notes are an integral part of these condensed interim consolidated financial statements

1. Nature of Operations

Atlas Engineered Products Ltd. (the "Company" or "Atlas") was incorporated pursuant to the provisions of the Business Corporations Act (British Columbia) on January 18, 1999. Atlas Engineered Products Ltd. is a leading manufacturer of trusses, windows, wall panels, and supplier of engineered wood products. Atlas operates manufacturing and distribution facilities in British Columbia, Manitoba, and Ontario to meet the needs of residential and commercial builders.

The Company's registered office is located at 2005 Boxwood Road, Nanaimo, British Columbia V9S 5X9.

2. Accounting Policies

Basis of presentation

These consolidated financial statements have been presented in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), effective for the Company's reporting for the three months ended March 31, 2023.

These consolidated financial statements have been prepared under the historical cost basis and are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries.

The accounts of the subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies.

The preparation of these consolidated financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial position and the reported amount of revenues and expenses during the reporting year. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

These consolidated financial statements were approved for issue by the Board of Directors on May 25th, 2023.

Basis of consolidation

The Company's consolidated financial statements consolidate those of the parent company and all its subsidiaries as of the date that control was obtained over those subsidiaries. The Company has seven subsidiaries, all located in Canada, Clinton Building Components Ltd. ("Clinton"), Satellite Building Components Ltd. ("Satellite"), Atlas Building Systems Ltd. ("ABS") (formally Coastal Windows Ltd.), Pacer Building Components Ltd. ("Pacer"), South Central Building Systems Ltd. ("SC"), Novum Building Components Ltd. ("Novum"), and Hi-Tec Industries Ltd. ("Hi-Tec"). The Company owns 100% of the issued and outstanding shares of all of these subsidiaries.

All transactions and balances between the Companies are eliminated on consolidation, including unrealized gains and losses on transactions between the companies. Amounts reported in the unaudited condensed interim consolidated financial statements of the subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Company.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

(Unaudited - expressed in Canadian dollars)

3. Acquisition of Hi-Tec

On February 28, 2022, the Company completed its acquisition of Hi-Tec whereby the Company acquired all the issued and outstanding shares of Hi-Tec for $5,800,000 in cash. A working capital adjustment was calculated and finalized within 60 days of closing and was calculated to be $454,981. The fair value of the identifiable assets acquired included $1.45 million in intangible assets, which primarily relate to customer relationships and a non-compete agreement. Management applied significant judgment in estimating the fair value of the intangible assets. To estimate the fair value of the intangible assets, management used the multi-period excess earnings method to value customer relationships and the with and without method to value the non-compete agreement using discounted cash flow models. Management developed significant assumptions related to revenue, gross margin, EBITDA forecasts, customer retention rates, and discount rates. Hi-Tec is located in Lantzville, BC. Hi-Tec, a manufacturer of roof and floor trusses and supplier of engineered wood products aligns with the core business of the Company.

The acquisition has given the Company greater access to the Vancouver Island market in BC. Hi-Tec is close to the Company's ABS location and this acquisition will provide synergies between the locations when it comes to employees, skills, training, equipment, and shipping options.

In accordance with IFRS 3, the Hi-Tec acquisition was accounted for as a business combination. The purchase price allocation is finalized as follows:

Category	$
Cash	5,800,000
Working capital	454,981
Total consideration	**6,254,981**
Cash	314,558
Accounts receivable	560,993

date of drawdown with monthly interest payments of 1,972 per month. The loan is secured by a general security interest granted by the Company and an assignment of share pledge agreement.

6. A mortgage with a major Canadian bank bearing interest at a floating rate (6.70% as at March 31, 2023) repayable at $8,125 per month with maturity February 2047. The loan is amortized over 300 months. The loan is secured by a general security interest granted by the Company and an assignment of share pledge agreement.
7. A term loan with a major Canadian bank bearing interest at a floating rate (6.70% as at March 31, 2023) repayable at $69,047.62 per month with maturity February 2029. The term of the loan is 84 months. The loan is secured by a general security interest granted by the Company and an assignment of share pledge agreement.

The Company applies judgement in the classification of long-term and short-term debt portions. The Company assumes that the prime interest rate will remain consistent or not change materially over the next twelve months. Loan 5 of the Company's debt obligations has consistent payments and a change in the interest rate would affect the principal portion as the overall payment was set for the term. The remaining loans are either no interest loans or have fluctuating payments that would change as the interest rate changes and the principal portion of those payments would remain constant.

The Company has a credit facility agreement with TD Canada Trust. The agreement has three facilities. The first facility is an operating line of credit and the second facility is a committed revolving facility which was used to refinance the purchase of equipment in January 2021. The third facility is a committed reducing term loan used to pay off other debt obligations.

The credit facility with TD Canada Trust contains two financial covenants. A total leverage ratio of less than or equal to 2.50 to 1 which is tested quarterly on a twelve-month rolling basis. The second financial covenant is a fixed charge coverage ratio of greater than or equal to 1.15 to 1 to be tested quarterly on a twelve-month rolling basis. As at March 31, 2023, the Company was in compliance with their covenants

13. Share capital

a) Authorized

Unlimited common shares without par value.

b) Share capital transactions

On December 1, 2022, the Company renewed the Normal Course Issuer Bid (NCIB) which is effective until the earlier of December 1, 2023 and the date on which the Company has purchased the maximum permitted number of shares. Pursuant to the NCIB, the Company may purchase up to 4,732,015 of its outstanding common shares as at November 2, 2022 representing approximately 10% of the public float of shares outstanding at market prices.

During the three months ended March 31, 2023 the Company purchased for cancellation 196,000 of shares pursuant to its NCIB for a total of $155,848. The Company's share capital was reduced by the average carrying value of shares repurchased for cancellation.

13. Share capital (continued)

a) Options

The Company adopted a share option plan that allows for the issuance of up to 10% of the issued and outstanding shares as incentive share options to directors, officers, employees and consultants to the Company. Share options granted under the plan may be subject to vesting provisions as determined by the Board of Directors. Standard vesting provisions are in thirds every six months from the date of grant. The options are priced using the trading price at the end of the close on the date of the grant and they are exercisable within five years from the date of grant.

The Company's share options outstanding as at March 31, 2023 and December 31, 2022 and the changes for the periods then ended are as follows:

c) Options (continued)

The Black-Scholes Pricing Model was used to estimate the fair value of the share options using the following assumptions on the grant date of the options:

Issue date	Expected option life (years)	Risk free interest rate	Dividend yield	Expected volatility	Expected forfeiture rate	Weighted average fair value
March 3, 2019	5.00	1.80%	Nil	165%	25.45%	$0.28
January 4, 2021	5.00	0.39%	Nil	127%	24.39%	$0.42
April 21, 2021	5.00	0.94%	Nil	118%	24.26%	$0.24
January 4, 2022	5.00	1.39%	Nil	94%	22.85%	$0.43
April 21, 2022	5.00	2.78%	Nil	67%	22.08%	$0.37
November 22, 2022	5.00	3.23%	Nil	66%	20.58%	$0.35
December 20, 2022	5.00	3.05%	Nil	66%	20.42%	$0.42
January 4, 2023	5.00	3.25%	Nil	66%	20.03%	$0.43

The expected volatility is based on the historic volatility and adjusted for any expected material changes to future volatility due to publicly available information. Historical volatility is based on the daily volatility from the five years prior to the grant date due to the remaining life of the options at the grant date.

b) Warrants

19. Financial instruments

Classification of financial instruments

The Company's financial instruments consist of cash, trade accounts receivable, accounts payable and accrued liabilities, customer deposits, and long-term debt. The Company classified and measured its cash and accounts receivable as subsequently measured at amortized cost. Accounts payable and accrued liabilities, customer deposits, and long-term debt notes are classified and measured at amortized cost.

The Company thoroughly examines the various financial instruments and risks to which it is exposed and assesses the impact and likelihood of those risks. These risks include market risk, interest rate risk, credit risk, and liquidity risk. Where material, these risks are reviewed and monitored by the Board of Directors who actively focus on securing the Company's cash flows by minimizing the exposure to volatile financial instrument risks.

19. Financial instruments (continued)

Market risk

The Company is exposed to various market risks, including foreign exchange rates, interest rates, and the COVID-19 pandemic. To date, the outbreak and continuing spread of COVID-19 and the related disruption to the economy have not significantly affected the Company's operations.

a) Foreign exchange risk

The Company is exposed to foreign exchange risk. The Company has revenue from sales to the US, US non-inventory expenditures, and bank accounts in US currency. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the functional currency of the Company. The risk is measured through a forecast of highly probable USD transactions.

The Company minimizes the risk of the volatility of the US currency cost by keeping USD funds received from sales in USD bank accounts. These USD funds are then used for expenditures that arise in the same currency. Only at the end of the year does the Company assess the risk of transferring the excess funds to a CDN bank account. If the risk is too high, then the funds will remain in the USD account until the risk is reduced.

Profit or loss is sensitive to the fluctuations of the USD to CDN foreign exchange rates on the US revenues. If the USD foreign exchange rate were to increase by 10% with a full year of USD sales transactions based on previous sales to the US, this is estimated by management to increase sales by $47,800 annually. The Company did not sell into the US during 2022 but has previously and anticipates selling into the US again in the short-term future.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's policy is to minimize interest rate risk exposures on term financing. All leases and exchangeable notes have fixed rates. As at March 31, 2023, the Company is exposed to changes in market interest rates through the bank borrowings at a floating base rate. This risk is low because changes in the prime rate are not substantial and increases would not impact the consolidated financial statements significantly. If the rates were to increase 10% this would result in an increase in interest of approximately $11,068 over the next quarter.

Credit risk

Credit risk is the risk that a counterparty fails to meet its contractual obligation to the Company. The Company is exposed to the risk for various financial instruments through receivables from customers and placing deposits and the potential for cash fraud. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognized as at March 31, 2023 and December 31, 2022 summarized below:

	March 31, 2023	**December 31, 2022**
	$	**$**
Classes of financial assets – carrying amounts		
Cash and cash equivalents	16,218,624	16,118,601
Trade accounts receivable, net of loss allowance	5,710,700	5,785,108
	21,929,324	21,903,709

(Unaudited - expressed in Canadian dollars)

19. Financial instruments (continued)

Credit risk (continued)

The Company closely monitors cash by applying a sweep account function to the subsidiary accounts and a daily bank reconciliation. The Company also requires each division to detail weekly any collection attempts of receivables over 61 days and prepares and aging account receivable report weekly to monitor any progress.

The Company also continuously monitors defaults of customers, identified individually, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and credit checks are obtained and used. The Company's policy is to deal only with creditworthy customers.

The Company has certain trade receivables that have not been settled by the contractual due date but are not considered to be impaired. The receivables and their aging as at March 31, 2023 and December 31, 2022 is summarized below:

	March 31, 2023	December 31, 2022
	$	$
Trade accounts receivable, net of loss allowance		
Current	3,144,507	2,911,858
Past due 1 to 30 days	1,067,296	1,518,422
Past due 31 to 60 days	582,093	648,293
Past due over 60 days	916,804	706,535
	5,710,700	5,785,108

The loss allowance as at March 31, 2023 and December 31, 2022 was determined as follows for trade accounts receivable:

As at March 31, 2023

	Current	Past due 1 to 30 days	Past due 31 to 60 days	Past due over 60 days	Total
Expected loss rate	0.00%	0.00%	0.25%	0.07%	0.03%
Trade accounts receivable	3,144,507	1,067,296	583,552	917,491	5,712,846
Loss allowance	-	-	1,459	687	2,146

As at December 31, 2022

	Current	Past due 1 to 30 days	Past due 31 to 60 days	Past due over 60 days	Total
Expected loss rate	0.00%	0.00%	0.25%	0.46%	0.08%
Trade accounts receivable	2,911,858	1,518,422	649,918	709,824	5,790,022
Loss allowance	-	-	1,625	3,289	4,914

The expected loss rates are based on historical credit losses and adjusted to reflect current and forward-looking information of the customers' ability to settle the receivables. This is affected and adjusted constantly based on acquisitions that bring in new customers and new information from economic conditions.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations. The Company may be exposed to liquidity risks if it is unable to collect its trade and other receivables balances in a timely manner, which could in turn impact the Company's long-term ability to meeting commitments under its current facilities.

The Company manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities and debt servicing ratios. The Company also forecasts and manages cash inflows and outflows on a daily, weekly and monthly basis.

The Company considers expected cash flows from financial assets in assessing and managing liquidity risk, in particular its cash resources and trade receivables. The Company's existing cash resources and trade receivables exceeds the current cash outflow requirements as our current ratio is currently 4.04:1. Cash flows from trade accounts receivable are all contractually due within thirty days.

As at March 31, 2023, the Company's non-derivative financial liabilities have contractual maturities (including interest payments where applicable) as summarized below:

	Current	Current	Non-current	Non-current
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years

20. Management of capital

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to continue operations. In the management of capital, the Company includes its components of long-term debt, lease obligations, cash and equity.

The amounts managed as capital by the Company are summarized as follows:

	March 31, 2023	December 31, 2022
	$	$
Long-term debt	13,028,931	13,484,447
Lease obligations	1,509,909	1,761,273
Less: Cash and cash equivalents	(16,218,624)	(16,118,601)
Net debt	(1,679,784)	(872,881)
Total equity	29,579,876	28,872,703
	27,900,092	27,999,822

The Company maintains and adjusts its capital structure based on changes in economic conditions and the Company's planned requirements. The Company may adjust its capital structure by issuing new equity, issuing new debt, or acquiring or disposing of assets, and controlling its expenses. From time to time, the Company purchases its own shares in the open market under a defined NCIB. All repurchased common shares are cancelled.

Management reviews its capital management policies on an ongoing basis.
